学术报告

- Title:** Entanglement Berry Phases: from the Berry Phase to Holography to Measurement-Based Quantum Computing (II)
- Speaker:** Bartek Czech (*IAS, Tsinghua University*)
- Time:** 3:30pm, Thursday, Nov. 12, 2020
- Venue:** Conference Hall 322, Science Building, Tsinghua University

Abstract

We will continue our discussion of Measurement-Based Quantum Computation and see that entanglement Berry phases underlie its remaining ingredients: deciding what measurements to perform and correcting for undesirable measurement outcomes (eliminating post-selection).
